EXECUTIVE PROFILE

MBA graduate specializing in **Operations Management** with a Bachelor of Technology in Biotechnology and progressive leadership experience in operations, research administration, strategic planning, and organizational development. Currently serving as **Manager – Operations & Research** at Bioverse Technologies Private Limited, leading multidisciplinary initiatives across biotechnology, research, training, consultancy, laboratory development, and institutional collaborations.

Experienced in driving operational excellence through process optimization, project and program management, stakeholder engagement, business development, and cross-functional leadership. Demonstrated ability to establish strategic partnerships, coordinate international scientific conferences, develop research infrastructure, and implement operational frameworks that support organizational growth and innovation.

Recognized for combining analytical thinking, scientific expertise, and business acumen to align operational strategy with organizational objectives while fostering continuous improvement, digital transformation, and sustainable value creation.

EXECUTIVE COMPETENCIES

Strategy & Business Management

- Strategic Planning & Execution
- Business Strategy
- Operations Management
- Business Process Optimization
- Operational Excellence
- Organizational Development
- Business Transformation
- Change Management
- Performance Management (KPIs & OKRs)
- Risk Assessment & Mitigation

Program & Operations Leadership

- Project & Program Management
- Resource Planning & Allocation
- Budget Planning & Cost Optimization
- SOP Development & Governance
- Cross-functional Team Leadership
- Stakeholder Relationship Management
- Vendor & Partner Management
- Client Engagement
- Continuous Improvement

Research Administration & Innovation

- Research Operations Management
- Scientific Project Management
- Laboratory Operations
- Innovation Management
- Technology Commercialization
- Industry–Academia Collaboration
- Proposal Development
- Scientific Documentation
- Research Compliance
- Knowledge Management

PROFESSIONAL EXPERIENCE

Bioverse Technologies Private Limited

Manager – Operations & Research (February 2026 – Present)

Lead operational strategy and research administration for multidisciplinary biotechnology, consultancy, training, and innovation initiatives.

Key Contributions

- Direct organizational operations across research, consultancy, laboratory development, training, and institutional collaboration functions.
- Develop and implement strategic operational frameworks that improve governance, efficiency, and project execution.
- Manage multidisciplinary programs by coordinating planning, execution, monitoring, reporting, and stakeholder communication.
- Build and strengthen partnerships with universities, research organizations, industry partners, and external stakeholders.
- Oversee operational planning for molecular biology, microbiology, and plant tissue culture laboratory infrastructure.
- Lead preparation of scientific reports, technical documentation, operational policies, and institutional communications.

- Support organizational growth through business development initiatives, process optimization, and strategic planning.
-

Research Associate (February 2022 – January 2026)

- Coordinated biotechnology research projects, laboratory training programs, and academic outreach initiatives.
 - Organized scientific workshops, faculty development programs, conferences, and technical training sessions.
 - Developed scientific reports, technical documentation, training manuals, and project records.
 - Supported implementation of collaborative research programs and institutional partnerships.
 - Assisted in curriculum development for biotechnology and bioinformatics skill development programs.
-

LEADERSHIP ACHIEVEMENTS

- Led multidisciplinary operational planning across research, consultancy, training, and innovation initiatives.
 - Coordinated national and international scientific conferences involving researchers, academic institutions, industry professionals, and students.
 - Strengthened industry–academia collaborations supporting internships, research projects, workshops, and innovation programs.
 - Developed operational frameworks for biotechnology laboratory establishment and scientific workflow optimization.
 - Designed and coordinated practical training programs in molecular biology, microbiology, plant tissue culture, and bioinformatics.
 - Contributed to organizational growth through strategic operations management, stakeholder engagement, and process standardization.
-

STRATEGIC PROJECTS

International Scientific Conference Management

Directed end-to-end planning and execution of scientific conferences by managing scientific committees, keynote speakers, sponsorships, logistics, registrations, stakeholder communication, and operational coordination.

Biotechnology Capacity Building Programs

Designed and coordinated practical training programs in biotechnology, molecular biology, microbiology, plant tissue culture, and bioinformatics to strengthen academic and industry readiness.

Laboratory Infrastructure Development

Developed operational plans for integrated biotechnology laboratories covering workflow optimization, laboratory layout, biosafety considerations, equipment planning, documentation systems, and operational readiness.

Industry–Academia Partnership Development

Facilitated institutional collaborations supporting research projects, internships, faculty development programs, technology transfer, and innovation ecosystems.

EDUCATION

Master of Business Administration (MBA)

Operations Management (Major) | Human Resource Management (Minor)

CGPA: 7.12 | Completed: 2026

Bachelor of Technology (B.Tech.)

Biotechnology

CGPA: 7.45 | Completed: 2022

TECHNICAL & MANAGEMENT SKILLS

Business Operations & Management

Strategic Planning • Operations Management • Business Process Optimization • Operational Excellence • Lean Process Improvement • Project Management • Program Management • Resource Planning • Budget Planning • Cost Optimization • Risk Management • Organizational Development • Change Management • Quality Management Systems (QMS)

Research Administration & Innovation

Research Project Management • Scientific Documentation • Research Compliance • Innovation Management • Technology Commercialization • Industry–Academia Collaboration • Proposal Development • Laboratory Operations Management • Knowledge Management • Intellectual Property Awareness

Data Analytics & Digital Productivity

Microsoft Excel (Advanced) • Microsoft Word • Microsoft PowerPoint • Google Workspace • Business Reporting • Data Analysis • Dashboard Preparation • AI-assisted Productivity • ChatGPT • Microsoft Copilot • Google Gemini • Claude AI • Perplexity AI

Biotechnology & Bioinformatics

Molecular Biology • Microbiology • Plant Tissue Culture • Bioinformatics • NCBI Databases • BLAST • GenBank • PubMed • Biological Databases • Sequence Alignment • Experimental Design • Scientific Literature Review
